WORK EXPERIENCE

React Developer
Solulab

06/2021 - Present   *WFH*

Projects

- **Etabibo** : Etabibo is an appointment booking platform where patient can view, interact, have session and take prescription from doctors.
- Used React redux for state management and formik for form control.
- I have been in the frontend lead for this project with the responsibilities including peer code review, managing the resource and working closely with the team.
- **Pubchats** : Pubchats is an algorithm-free social media platform for good conversations and great content.
- Used MERN tech stack in Pubchats and my responsibility was to develop and integrate the frontend part of this application in React and create it as a PWA.
- I have implanted uploading media to cloudinary, CURD operation, video player, like, share, comment and sub-comment on a post.
- **Collection Valuation** : Its a e-commerce website where user can buy and sell antique coins and bank notes.
- Used MERN with python for AI as a tech stack in Collection Valuation and my responsibility is to develop the frontend of this application in react which includes secure-routing, cart management, coin/note management, coin/note uploads, fetching and sending data to ML , PayPal payment gateway and delivery tracking.

Jr. React Developer
GP Coders

*06/2020 - 05/2021*   *Mohali*

Achievements/Tasks

- Created a web application in React for peer-to-peer video meeting.
- Design the data flow in application.
- Implemented the Redux in the application.
- Used git and GitHub for versioning control.

EDUCATION

Bachelor of Technology
University Institue Of Information Technology

06/2016 - 09/2020   *Shimla, Himachal Pradesh*

SKILLS

React   Redux   JavaScript   Formik   YUP
HTML   CSS   Git   Github   Axios   NPM

PERSONAL PROJECTS

Dota 2 website (09/2021 - 10/2021)
- Created a website to showcase Dota 2 features, game developed by Valve.
- Used Open Dota Api service to get the api's for all the hero's and there abilities.
- Implemented filter functionality for heroes and items depending upon the name and complexity.
- Created a dynamic video description for each hero abilities.

React Boiler Plate (10/2021 - 11/2021)
- Created a flexible boilerplate for react projects.
- Intergrated react-redux for state management with thunk as a middleware.
- Implemented routing for guest as well as secure routes.
- Implemented industry-standard Folder structure.

Robo Friends - Dynamic webpage (07/2020 - 08/2020)
- It is webpage created with the help of React.js which search robots from a set of robots and display result in real time
- Site preview:- https://rantavishav.github.io/robofriends/

EXTRACURRICULAR ACTIVITIES

Coordinated various events in Utkash 2019
Coordinated various event like cultural dance, e-sports events at University fest 2019
